Tampa, Florida 33607-1712**

November 1999

## **FOREWORD**

This report was prepared in fulfillment of the Estero Bay and Watershed Assessment being conducted by PBS&J, Inc. for the South Florida Water Management District, in fulfillment of Contract No. **C-7784**.

## ACKNOWLEDGMENTS

The authors of this report wish to acknowledge the contributions of a number of people. We would like to thank South Florida Water Management District staff, primarily Rick Alleman and Margaret Bishop, project managers for the Estero Bay and Watershed Assessment Plan. In addition, Terry Bray of Lee County provided county GIS map data and Keith Kibbey of Lee County Environmental Lab provided water quality data. David Burr and Wayne Daltry of the Southwest Florida Regional Planning Council also provided information and insight in this document. The authors also wish to thank the Agency on Bay Management for their assistance in the completion of the work. Johnson Engineering, Inc., specifically Lonnie Howard and Mike Lore, provided background information on basin boundaries and hydrology. Other agencies which provided staff assistance and information include the Charlotte Harbor National Estuary Program, the Florida Department of Environmental Protection, the U.S. Geological Survey, and the Florida Game and Freshwater Fish Commission.

We would also like to acknowledge the efforts of Debra Childs for the GIS work; and Susan Janicki, David Wade, and Andy Squires for data compilation, management and analysis.

## TABLE OF CONTENTS

FOREWORD .....	ii
ACKNOWLEDGMENTS .....	iii
LIST OF FIGURES .....	vi
LIST OF TABLES .....	vii
1.0 INTRODUCTION .....	1-1
1.1 Study Area .....	1-1
1.2 Background .....	1-3
1.3 Basin Prioritization Objectives .....	1-5
2.0 PRIORITIZATION OF BASINS BY INDIVIDUAL CRITERIA .....	2-1
2.1 Urban Runoff Discharge .....	2-1
2.2 Agricultural Runoff Discharge .....	2-8
2.3 Total Suspended Solids Loading .....	2-13
2.4 Total Nitrogen Loading .....	2-18
2.5 Total Phosphorus Loading .....	2-23
2.6 Wetland Area at Risk .....	2-28
2.7 Point Sources .....	2-33
3.0 PRIORITIZATION OF BASINS BY AGGREGATES OF CRITERIA .....	3-1
3.1 Prioritization by Three Important Classes of Impacts .....	3-1
3.2 Overall Prioritization .....	3-11

4.0	REFERENCES .....	4-1
-----	------------------	-----

APPENDIX A: SECONDARY BASIN RANKINGS - for each criterion listed in rank order and listed in secondary and tertiary basin order

APPENDIX B: LAND USE-SPECIFIC RUNOFF COEFFICIENTS AND POLLUTANT CONCENTRATIONS
